College of Engineering

College of Engineering Ph.D. Student Scholarship Program for K-State Undergraduate and Master's Students August 1, 2015

As part of our efforts to meet the goals of K-State 2025 and the College of Engineering goals for 2020 and beyond, we are working towards doubling our number of Ph.D. students within the College of Engineering in the next five years.

The College of Engineering feels that engineering undergraduate and master's students and alums are excellent candidates to become future Ph.D. students to join the K-State family and help us to increase these enrollment numbers. This program begins with students enrolling for Fall Semester 2016 and beyond.

Objective:

To encourage K-State engineering undergraduate and master's students and alums to apply and attend the College of Engineering for one of our eight doctoral programs.

Scholarship Program:

The College of Engineering will provide a one-time \$500 scholarship to any Kansas State University engineering undergraduate or master's student or alum who joins a Kansas State College of Engineering Ph.D. program, as described below. The student will receive \$250 the first semester they are enrolled full-time in an engineering Ph.D. program and \$250 for the second semester when they continue enrollment as a full-time student.

Recruitment Requirements:

1. To initiate the process, please provide your name, email address and Ph.D. department of interest to ERG@ksu.edu.
2. A representative from that department will contact you.
3. In order to receive the scholarship, you must have attended Kansas State for your undergraduate or master's engineering degree, apply to and be accepted in a College of Engineering Ph.D. program, enroll in the program and attend classes full-time for two semesters at Kansas State.

Deadlines for recruitment nominations:

- November 15 for international students and January 15 for US citizens and permanent residents for August admission
- May 15 for January admission

This program will be evaluated annually in the summer. If you have any questions, please contact the Associate Dean for Research at 785-532-5844 or ERG@ksu.edu.
