

REVISED: February 22, 2010

NAME: Larry Eugene Erickson

YEAR BORN: 1938

TITLE: Professor of Chemical Engineering and Director, Center for Hazardous Substance Research

DEGREES: B.S. Ch.E. Kansas State University, 1960
Ph.D. Kansas State University, 1964

EXPERIENCE:

Natural Gas Production Engineer, Mobil Oil Co., Summer 1959
Research Engineer (Polymer Chemistry), ESSO Research & Engineering Co., summer 1960
National Defense Education Act Fellow, 1960-63
Research Engineer (Process Control), Humble Oil & Refining Co., Summer 1961
Graduate Teaching Assistant, Kansas State University (2/5 time), 1962-63
National Science Foundation Fellow, 1963-64
Instructor, Kansas State University, 1964-65
Office of Saline Water Grant on Optimal Desalination Systems, 1965-1969
NSF Conference on Optimization Theory for Chemical Engineering Professors, lecturer and participant, summer 1965
Office of Saline Water Grant on Desalination by the Inversion in the Order of Melting by Applied Pressure, 1965 to 1967
Office of Water Resources Research Grant on Optimal Aeration Systems, 1965 to 1967
Assistant Professor, Kansas State University, 1965-67
Washington University Conference on Chemical Engineering Design Education, speaker and participant, summer 1966
Mid-America State Universities Association Conference on Modern Optimization Techniques and their Application in Engineering Design, lecturer and participant, December 1966
Dupont Summer Grant on the Optimal Design of Biochemical Processing Systems, summer 1967
Kansas Water Resources Research Institute Grant on Optimization of Step Aeration Waste Treatment Systems, 1967 to 1969
Water Pollution Control Administration Grant on the Optimal Design of Waste Treatment Systems, 1967 to 1972
Public Health Service Special Research Fellow at University of Pennsylvania, 1967-68
NASA Grant on Optimization of Life Support Systems and Their System Reliability, 1968 to 1971
Associate Professor, Kansas State University, 1968 to 1972
Office of Water Resources Research Grant on Modeling and Optimization of Water Resources Systems, 1968 to 1971
Office of Water Resources Research Matching Grant on Water Quality Modeling and Prediction, 1968 to 1973
Kansas Water Resources Research Institute Grant on Experimental Optimization of Step Aeration Waste Treatment Systems, 1969 to 1971

continued

Public Health Service Research Career Development Award, 1970 to 1975
 Professor, Kansas State University, 1972 to present
 Kansas Water Resources Research Institute Grant on Design and Control of Transient Waste Treatment Processes, 1971 to 1973
 National Science Foundation Grant on Tower Systems for Microbial Growth 1972 to 1973
 Consultant-Development Planning and Research Associates, 1972 to 1973
 Consultant-Organization of American States, 1973
 National Science Foundation Grant on Mass Transfer, Mixing and Growth in Tower Fermentors with Motionless Mixers, 1974 to 1977
 Visiting Scientist, Nutrition and Food Science, MIT, February 1975
 Visiting Scientist in USSR, US-USSR Cooperative Research Program in Microbiology, May-June 1975
 Visiting Scientist in USSR, National Academy of Sciences Exchange Program, September 1977-January 1978
 National Science Foundation Grant on Synthesis of Optimal Tower Fermentation Systems for Growth and Transport, 1977 to 1980
 Department of Energy Grant on Development and Application of Material and Energy Balance Regularities for Renewable Energy Resources, 1979-1981
 National Science Foundation Grant on Applications of Mass and Energy Balance Regularities in Biochemical Engineering, 1980-1984
 National Science Foundation Grant on Synthesis of Optimal Tower Fermentors for Viscous Fermentations, 1981-1986
 U.S. Department of Agriculture Grant on Developing Scientific Expertise in Characterizing and Processing Cereal and Animal Products, 1984-1988
 National Science Foundation Grant on Development of Models and Continuous Culture Theory for Photosynthetic Microbial Growth, 1984-1988
 Visiting Professor, Chemical Engineering, University of California, Berkeley, Fall Semester, 1985
 Director, Office of Hazardous Waste Research, Kansas State University, 1985-1989
 U.S.G.S. Cooperative Agreement for a Remedial Investigation and Feasibility Study of Acid Sludge Waste at the Arkansas City Dump Site, Cowley County, Kansas, 1986-1988
 NSF Grant on Transport Phenomena Associated with Gas-Liquid Dispersions in Tower Fermentors for Plant and Animal Cell Culture Applications, 1987-1991
 Environmental Protection Agency Grant for Hazardous Substance Research Center for U.S. EPA Regions 7 and 8: Great Plains/Rocky Mountain Hazardous Substance Research Center, 1989-present; Center Director, 1989-2003
 National Science Foundation Grant on Environmental Air Quality, 2000-2004
 U.S. Department of Defense Grant for Establishment of the NEER (Nonlethal Environmental Evaluation and Remediation) Center, 2001-present; Center Director, 2001-present
 NSF Grant Combined Research - Curriculum Development (CRCDD) in Geoenvironmental Engineering, 2003-2007

HONORARY AND PROFESSIONAL SOCIETIES:

Sigma Xi, Phi Kappa Phi, Phi Lambda Upsilon, Tau Beta Pi, Sigma Tau, American Institute of Chemical Engineers, Water Environment Federation, American Chemical Society,

American Society for Microbiology, American Water Resources Association, The Society of Fermentation Technology (Japan), New York Academy of Sciences, American Society for Engineering Education, Kansas Academy of Sciences, Institute of Food Technologists, American Water Works Association, Society for Industrial Microbiology, Association of Ground Water Scientists and Engineers, Air and Waste Management Association

HONORS:

Halliburton Education Foundation Award of Excellence, 1985-1988
 College of Engineering Advisor of the Year, 1987-1988
 Sigma Xi Outstanding Scientist Award, Kansas State University, 1988
 Beta Sigma Psi Lienemann Award, 1994
 Phi Tau Sigma Outstanding Food Scientist Award, Kansas State University, 1995
 Coauthor of outstanding poster at HSRC/WERC Joint Conference on the Environment, 1996
 Kansas State University Professor of the Week, September, 2000
 Irvin E. Youngberg Award, University of Kansas, 2001
 Fellow of the American Institute of Chemical Engineers, 2001
 Commerce Bank Distinguished Graduate Faculty Award, 2003
 Engineering Research Excellence Award, 2003
 Best Theoretical Paper Award, Practice Periodical of Hazardous Toxic and Radioactive Waste Management, 2004
 Phi Kappa Phi Faculty Scholar Award, Kansas State University, 2006
 AIChE Environmental Division, Lawrence K. Cecil Award, 2006
 Making a Difference Award, Women in Engineering and Science Program, Kansas State University, 2007
 Luther Achievement Award, Midland Lutheran College, 2007
 KACEE Award for Excellence in Conservation and Environmental Education, 2008

FIELDS OF RESEARCH COMPETENCE:

Mathematical Optimization Techniques
 Transport Phenomena
 Process Design
 Biochemical Engineering
 Desalination
 Biological Waste Treatment
 Food Engineering
 Environmental Engineering

PROFESSIONAL PUBLICATIONS:**A. Monographs and Books**

LECTURES AND PRESENTATIONS

A. Invited Lectures

1. "The Maximum Principle," Northwestern University Chemical Engineering Department Colloquium, October 1964.
2. "The Discrete Maximum Principle" and "The Continuous Maximum Principle," NSF Summer Institute on Mathematical Methods in Engineering for College Teachers of Engineering, July 1965.
3. Several lectures on "The Maximum Principle and Its Application to Complex Processes," NSF Conference on Optimization Theory for Chemical Engineering Professors, August 1965.
4. "Optimization Procedures," A.I.Ch.E., Kansas City Section, All Day Meeting, March 18, 1966.
5. Several lectures on "Optimization and Its Use in Process Design," Virginia Polytechnic Institute Chemical Engineering Department, April 1966.
6. "The Use of Optimization Techniques in Senior Process Design Classes," Conference on Chemical Engineering Design Education, Washington University, September 1966.
7. Several lectures on "Optimization Techniques," Mid America State Universities Association Conference on Modern Optimization Techniques and Their Application in Engineering, Design, December 1966.
8. "The Use of Optimization in the Analysis and Design of Water Purification Systems," University of Nebraska, Chemical Engineering Department Seminar, March 6, 1967.
9. "Protein from Petroleum," Wichita Chemical Engineers Club, April, 1969.
10. "Two Lectures on Optimization Techniques and Their Use in Designing Desalination Systems," Office of Saline Water Conference on Optimization Methods - Application to Desalting, March, 1969.
11. "Modeling Microbial Growth in Petroprotein Processes," Drexel Institute of Technology Chemical Engineering Department Seminar, January 26, 1970.
12. "Analysis of Growth Processes in Tower Fermentation Systems," Institute of Microbiology, Czechoslovak Academy of Sciences, Prague, Czechoslovakia, September 11, 1970.
13. "Modeling of Hydrocarbon Fermentation Processes," Institute of Microbiology, Czechoslovak Academy of Sciences, Prague, Czechoslovakia, October 5, 1970.

continued

14. "Optimization of Biological Waste Treatment Systems" and "The Role of the Chemical Engineer in Biochemical and Environmental Engineering," University of Kansas, Lawrence, April 6, 1971.
15. Dynamics, Control, and Stability in Biological Waste Treatment," Phillips Petroleum Co., May 15, 1972.
16. "Modeling Microbial Growth in Oil - Water Systems," Phillips Petroleum Co., May 16, 1972.
17. "Design and Optimization of Hydrocarbon Fermentation Processes," Institute of Microbiology, Prague, Czechoslovakia, August 23, 1972.
18. Biological Waste Treatment Short Course, Center for Advanced Studies, National Polytechnic Institute, Mexico City, Mexico, May 14-25, 1973.
19. "Design of Biological Waste Treatment Systems," Rice University, Oct. 8, 1973.
20. "Surface Considerations in Single Cell Protein Production from Hydrocarbons," Gordon Research Conference on Chemistry at Interfaces, July 22-26, 1974.
21. "Models and Systems Engineering Techniques in Biochemical Engineering" and "Modeling Cultures with Two Liquid Phases," MIT, February 1975.
22. "Growth Models of Cultures with Two Liquid Phases," Columbia University, March 14, 1975.
23. "Optimal Design of Hydrocarbon Fermentation Processes," Kazan Institute of Chemical Technology, Kazan USSR, May 23, 1975.
24. "Production of Single Cell Protein," Wichita Section of AIChE, September 16, 1975.
25. "Growth of Cultures with Two Liquid Phases in Tower Systems," Institute of Microbiology, Czechoslovak Academy of Sciences, Prague (July, 1976).
26. "Mass Transfer, Mixing, and Growth in Airlift Tower Fermentors," USDA Grain Marketing Research Laboratory (January, 1977).
27. "Mass-Energy Balance Method in Fermentation," Institute for Protein Synthesis, Moscow, USSR (Dec., 1977).
28. "Mass-Energy Balance Method in Fermentation," Institute of Microbiology, Moscow, USSR (Jan. 1978).
29. "Mass Transfer in Air Lift Fermentors," August Kirchenstein Institute for Microbiology, Riga, Latvia, USSR (Jan. 1978).

continued

30. "Application of Chemical Engineering in Fermentation Technology," Regional Society of Chemical Engineers, Guayaquil, Ecuador (May 1979).
31. "Biochemical Engineering Short Course," University of Guayaquil, Guayaquil, Ecuador (May 1979).
32. "Recent Developments in Intermediate Moisture Foods," Symposium on Food Dehydration, Kansas State University, Manhattan, Kansas, September 26, 1980.
33. "Mass and Energy Balances in Bioconversion Processes," University of Minnesota, Oct. 10, 1980.
34. "Thermodynamic Efficiency of Microbial Growth and Product Formation," Washington University, St. Louis, March 16, 1983.
35. "Estimation of Yield and Maintenance Parameters Associated with Growth and Product Formation," University of Florida, March 18, 1983.
36. "Use of Mass Balances in Fermentation Process Analysis and Control," Eastman Kodak, Co., May 17, 1984.
37. "Kinetics and Bioenergetics of Photosynthetic Microbial Growth," Washington University, St. Louis, October 27, 1986.
38. "Research to Develop New Products from Grains," U.S. Grain Marketing Research Laboratory, April 1, 1987.
