

# K-State 2025

## **K-State 2025 Overall Goal**

Kansas State University will be recognized as one of the nation's Top 50 Public Research Universities.

## **Carl R. Ice College of Engineering Vision Statement**

The Carl R. Ice College of Engineering will pursue academic excellence in all of its endeavors.

## **Carl R. Ice College of Engineering Strategic Priorities**

**Academic prowess** — We will attract and retain diverse faculty who are recognized for their expertise and scholarship. Their synergistic intellectual interaction will lead to transformative innovations that will beneficially enhance the citizens of Kansas, the nation and the world. In order to facilitate this priority, we will recruit and retain outstanding faculty members in the college.

**Inspiring facilities** — We will construct cutting-edge facilities for instruction, collaboration and research in order to create an ecosystem that will foster creative thinking and innovation. In 2016 we opened Engineering Hall, which added 108,000 square feet of additional space in the college.

**Exceptional educational experiences** — Because higher education is becoming increasingly interdisciplinary and experiential, we will develop innovative pedagogies that integrate classroom instruction, creative inquiry and real-world experiences.

**Influential research and scholarship** — The production of new knowledge through research and scholarship is central to the mission of the college. In accordance with the tradition of a land-grant university, our faculty's research will provide real-world solutions for complex problems associated with the global society of the 21st century.
