1. Departmental Student Organization (DSO) Status versus Independent Student Organization (ISO) Status

DSO – Departmental Student Organization

• A DSO is a registered organization sponsored by a department with a purpose critical to the university’s mission. The sponsoring department oversees day-to-day operations and activities planned by the organization and designates an employee to support the organization.
• DSOs must have an adviser who is an employee of the sponsoring university department.
• Funds from the SGA to a DSO must be transferred to a university account where the money will be distributed in accordance with university, department and SGA policies, as well as the legislation distributing those funds. DSO funds are maintained by the sponsoring department.
