

## Humanities and Social Science Electives

All Humanities and Social Science (H & SS) courses applied towards degree requirements **must be taken for a letter grade** and also be selected from the most recent list of H & SS electives approved by the engineering faculty (see information below). Humanities is the branch of learning regarded as having primarily a cultural character and usually includes languages, art, music, literature, history, and philosophy. Social Science is the branch of science that deals with the institutions and functioning of human society and with the interpersonal relationships of individuals as members of society.

A student's DARS report should be checked for K-State 8 requirements when selecting H&SS electives. Further information regarding K-State 8 requirements can be found at [www.k-state.edu/kstate8/](http://www.k-state.edu/kstate8/). **Please note:** some courses are similar and therefore, only one of these courses can be used towards degree requirements. <sup>1,2</sup>
